SUMMARY
Skilled Web Developer with proven experience in designing, developing, and maintaining high-performance websites and web applications. Proficient in technologies such as PHP, Laravel, JavaScript, WordPress, HTML, CSS, Bootstrap, React, and MySQL. Experienced in building responsive, user-friendly, and scalable solutions with a strong focus on performance, security, and code quality. Committed to delivering reliable results and staying up to date with the latest web development technologies and industry best practices.
WORK EXPERIENCE
Web Developer Jan 2024 - 2026
Developed and maintained responsive websites and web applications using PHP, Laravel, Python, WordPress, JavaScript, HTML, CSS, and Bootstrap.
Built custom WordPress themes, plugins, and website functionalities based on client requirements.
Optimized website performance, security, and user experience, resulting in faster load times and improved reliability.
Integrated third-party APIs, payment gateways, and database solutions to enhance application functionality.
Collaborated with designers and project managers to deliver high-quality, scalable, and user-friendly web solutions.
Performed website maintenance, bug fixing, testing, and troubleshooting to ensure smooth operation across different devices and browsers.
Utilized version control systems and modern development practices to maintain clean, efficient, and maintainable code.
